## **INTRODUCTION**

This course embarks on a journey of introspection and transformation within the context of the Christian church. It eschews the temptation to merely criticize and exacerbate the wounds of the church, instead advocating for a healing approach

that addresses its flaws with the intent of nurturing it back to health. Rooted in a deep love for the church and a profound commitment to its restoration, the course challenges Christians to embrace reform and embody the church as envisioned by Christ. It serves as a clarion call for believers to step out of their comfort zones, confront uncomfortable truths, and rally together in pursuit of genuine change, even if it means facing harsh realities.
